ISSUE NO. 2

EDITORIAL

It's a new year, although it doesn't feel like it. We are all busy with academics, sport and cultural events, and other activities. I would like to take this opportunity to welcome all new pupils and parents to the school.

I am the teacher in charge of Academic coaching and wish to inform you that extra lessons have already started. Most subjects have extra lessons and for Grades 8 and 9, there are two lessons per week for Afrikaans, English and Maths. There is really no excuse as to why a learner can't attend these extra lessons.

I want to ask all the learners to make use of this opportunity to improve their schoolwork and marks. Don't wait until the Block test or the June exams to start attending these lessons! Do so now. You can prevent yourself from failing the Block assessment test if you get help in the first term. You don't have to pay for these lessons, as they are FREE, unlike most things these days.

Parents: please encourage your children to attend these lessons. I know they have extra murals as well, but they have to pass at the end of the year. There are Excel-eration classes as well, for pupils who are working towards a distinction. The teachers are doing a lot of extra preparation for both types of extra lessons and we urge you to see to it that your children to take advantage of this opportunity.

Good luck for this year.

Mrs.S.S.Bezuidenhout

HOD Afrikaans

Teacher in charge of Academic Coaching

A NOTE TO OUR PARENTS

One of the school's projects is to feed the sterilised feral cats that live on the school property and which help to keep our premises free of rodents. We would appreciate any donations of tinned or dry food. Donations may be handed in at the front office. Thank you to those parents who help us feed these cats. All contributions are gratefully accepted.
